1.0 Introduction

1.1 What is सीखें – सिखाये mobile app?

To meet the data requirements of our expanding organisation, a technology solution was necessary which would facilitate easy capture of data at source, maintain that data and generate extensive reports to provide useful insights to the program. The aim was to strengthen our existing internal M & E system with respect to data gathering, analysis and reporting.

With funding partner KOITA Foundation and development partner Designscape, an Android mobile app called सीखें – सिखाये was developed for the coaches and a web portal was developed for the District Managers and State Leads.

1.2 App Overview

The mobile app is used by each coach to enter and track his/her work based on the plans entered by the district manager. Each coach can enter details of coaching, visits, classroom observations, workshop attendance, workbook distribution, exhibitions etc.

The web portal is accessed by the District Managers (DMs) through their own DM access to enter the coaching and visit plans for each week for each coach. They have access to multiple reports that help them to monitor the data entered in the app by their team of coaches.

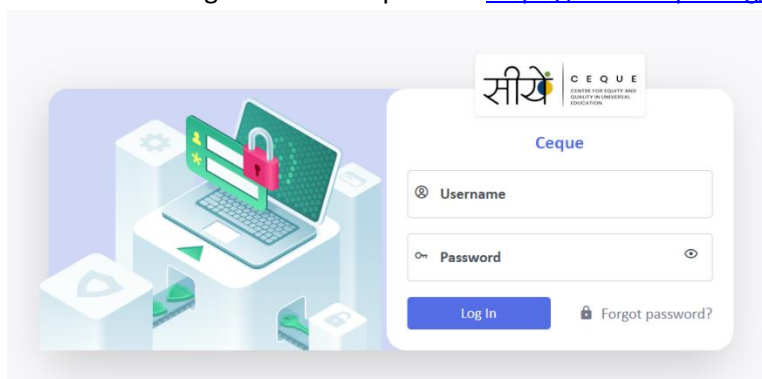

The web portal is also accessed by the senior staff through a Report Viewer access to view the reports available in the system to monitor and evaluate the planned versus actual data and the impact statistics.

1.3 Getting Started

This manual describes the features of the सीखें सिखाये app that are available to the DM and the Report Viewer roles.

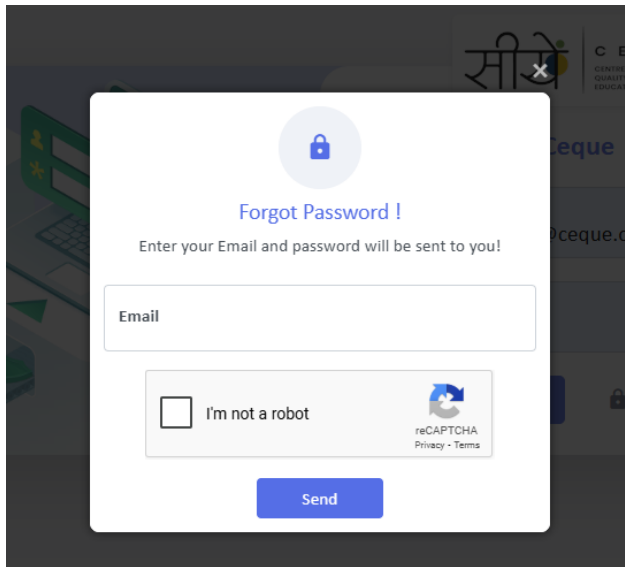

Chapter 2 lists the functions available to the DM to plan the management of the program in the system. Chapter 3 and Chapter 4 describe the Excel reports and the PowerBI reports that are available to the DM. Chapter 5 lists the additional reports that are available to the ReportViewer.

The link to login to the web portal is <https://mne.ceque.org/>

The login credentials to access the web portal are emailed to the users by the System Administrator and can be used to access the system.

If the user forgets the password, clicking on **Forgot Password?** will take him to the following screen

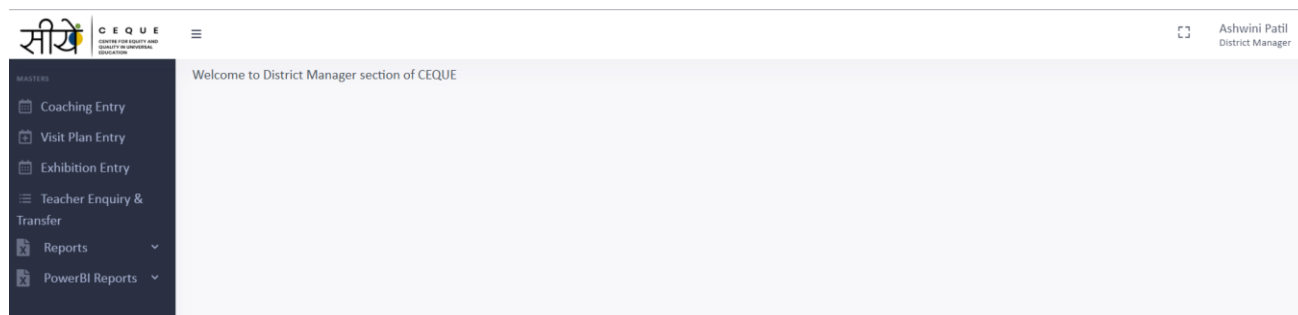

The image shows a mobile app interface for a 'Forgot Password' screen. At the top, there is a blue padlock icon inside a circle. Below it, the text 'Forgot Password !' is displayed in blue. Underneath, a message says 'Enter your Email and password will be sent to you!'. There is a white text input field labeled 'Email'. Below the input field is a reCAPTCHA section with a checkbox labeled 'I'm not a robot' and a reCAPTCHA logo. At the bottom of the form is a blue button labeled 'Send'. The background of the app is dark with some faint icons.

The password will be sent to the email entered by the user.

After logging in successfully, the main menu screen is displayed.

2.0 District Manager Functions

There are 4 functions that the DM manages through the web portal of the Seekhe app. Each of these functions are explained in detail below.

2.1 Coaching Entry

This function allows the DM to add the coaching plans for the coming weeks for each coach. The DM can also view the plans that have already been entered.

The names of all the coaches in the DM's team will be displayed, and the DM can select one of them. The list of all weeks starting from the beginning of the academic year will be displayed and the DM must select the week for which the selected coach's plan has to be entered.

On selecting a coach, a week and clicking on the + sign on the top right-hand corner, the following screen will be displayed.

The selected week and selected coach are automatically displayed on the screen for the DM to enter a single coaching plan for the coach.

The specific date out of the selected week, the start time of the coaching, the subject (Maths or Language or Both) must be entered. On clicking "Teacher(s) to be coached", a list of those teachers who teach the selected subject and who are assigned to the selected coach will be displayed. The DM must select the teacher (s) who must be coached by the selected coach in this session. If there are any specific comments or instructions to the coach about this coaching plan, then the DM can enter that in the Comments field.

On clicking Save, the coaching plan is saved in the system.

When View is clicked, all entered coaching plans are displayed.

The DM can edit any plan ONLY till the coach either conducts the coaching session or cancels it. Once the coach enters the coaching details into the app, the status of the plan changes from Pending to Conducted or Cancelled. The DM can edit the coaching plan only when the status is Pending.

The DM can duplicate a coaching plan. The same screen as Coaching Entry is displayed with the date, time, coach name and subject already filled up from the original coaching plan. The DM needs to only change the necessary fields and save the plan. This is a very useful time-saving feature.

Edit	Duplicate	Coach	Subject	Date	Start Time	Group / Individual Coaching	Location	Status	Attendance	Feedback
		Manohar Kamankar	Language	20-Aug-2024	11:00 AM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Maths	20-Aug-2024	12:30 PM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Language	20-Aug-2024	2:00 PM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Maths	20-Aug-2024	3:30 PM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Maths	21-Aug-2024	10:00 AM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Maths	21-Aug-2024	11:00 AM	Individual		Conducted	1 / 1	
		Manohar Kamankar	Language	21-Aug-2024	12:30 PM	Individual		Conducted	1 / 1	

2.2 Visit Plan Entry

This function allows the DM to enter the planned visits for his coaches for the coming week.

The names of all the coaches in the DM's team will be displayed, and the DM can select one of them.

As soon as the coach is selected, the entry screen for visits planned for the current week is displayed on the right-hand side. The DM can change the week to any other week from the beginning of the academic year.

The left-hand side displays the different types of visits that can be made, the number of visits made since the beginning of the academic year and the number of visits made for the past 2 weeks.

The number of visits planned for the coach to the different stakeholders for the specified week can be entered on the right-hand side and the data can be saved

VISIT PLAN ENTRY

Manohar Kamankar

12-May-2025 to 18-May-2025

Visits Made : AY 2024-2025	Total Visits	Visits of last 2 weeks

2.3 Exhibition Entry

This function allows the DM to add the exhibitions planned for the coming weeks for each coach. The DM can also view the plans that have already been entered.

AY 2024-2025 / EXHIBITION ENTRY

Select Block

Select Coach

Select Status

View

On clicking on the + sign on the top right-hand corner, the following screen will be displayed.

ADD EXHIBITION ENTRY

Date * 19-May-2025

Time * 10:00 AM

Block * Select Block

Coach * Select Coach

Subject Both

Teacher(s) attending * Select Teacher

School(s) attending * Select School

Exhibition Venue (School) Select School

Exhibition Venue (Any other location)

No. of students participating (display work) * 0

No. of students attending * 0

No. of other stakeholders attending * 0

Active

Save

By default, today's date and the time of 10:00 AM will be displayed and the DM can update both to enter the date & time of the planned exhibition.

On selecting the block, the coach from the drop-down list and the subject for the planned exhibition (this can be either Maths or Language or both Maths and Language), the list of teachers for the specified subject which are assigned to the coach are displayed.

The DM can select the teachers who will be participating in the exhibition. Similarly, the participating schools can also be selected from the next dropdown.

In case the exhibition is to be conducted in a school, then that school's name should be selected from the dropdown; else the alternate venue can be entered on the next field.

The DM can now enter the expected number of students who will be participating in the exhibition, the expected number of students who will only be attending the exhibition and the expected number of stakeholders (parents, government officials, local dignitaries) who will be attending the exhibition.

Please note that participation implies that the students are either displaying a model created by them or explaining what they have learnt using charts. They should be actively engaging with the visitors.

2.4 Teacher Enquiry & Transfer

This function has 2 parts – the first allows the DM to run a query on teacher name which is useful if the DM knows the name of the teacher but does not recall the school or cluster she belongs to and the second allows the DM to transfer a teacher from 1 school to another within the same district.

The screenshot shows the 'TEACHERS LIST' screen in the CEQUE app. At the top, there are filters for 'Thane' (Block), 'All Blocks' (Cluster), 'All Clusters' (TIP), and 'TIP - Yes'. Below these is a search bar containing 'Anita' and a 'View' button. The main part of the screen is a table with the following columns: Code, School, First Name, Middle Name, Last Name, Gender, Mobile, Subject, TIP, and Transfer. The table contains three records:

Code	School	First Name	Middle Name	Last Name	Gender	Mobile	Subject	TIP	Transfer
T6432	Z.P. School Shiravali	Anita		Date	Male	9307099983	Both	Yes	Transfer
T6422	Z.P. School Narhen	Anita		Mule	Female	9211433411	Both	Yes	Transfer
T6484	Z.P. School Chinchavali	Anita	Sunil	Patil	Female	9850917391	Both	Yes	Transfer

On entering part of the teacher's name, the system will display all the teachers matching that name from the selected block and cluster.

There is a Transfer button at the end of each teacher's record, and this can be used to transfer a teacher from 1 TIP school to another school. On clicking the Transfer button, the existing details of the teacher are displayed.

Select Subject

☐ Transfer Baseline Data ☐ Transfer CLO Data

Transfer

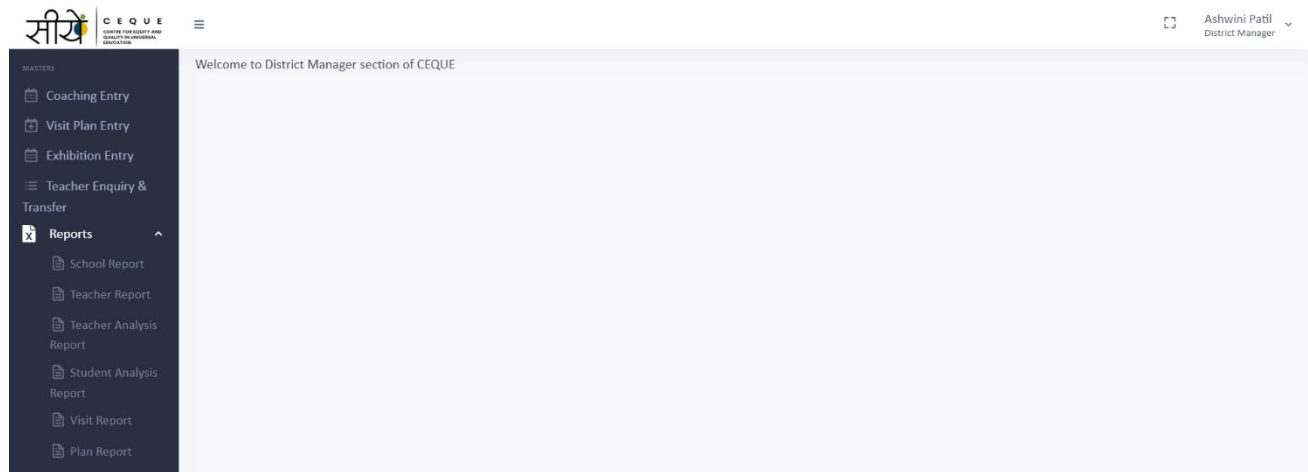

The district, block, cluster of the new school should be entered. Based on the cluster entered, the coach's name will be displayed in the dropdown. The new school should be selected from the dropdown as well as the subject.

Please note that in case the teacher is transferred to a different block or changes the subject after transfer, the baseline data as well as the CLOs entered WILL NOT be transferred to the teacher in the new school. This means that this teacher will not be considered as part of the impact data analysis at the end of the year.

After the DM has checked that the new school data is correct, the Transfer button should be clicked. The system will ask the DM to confirm that the transfer is to be done and on confirmation, the teacher with all her data is transferred to the new school.

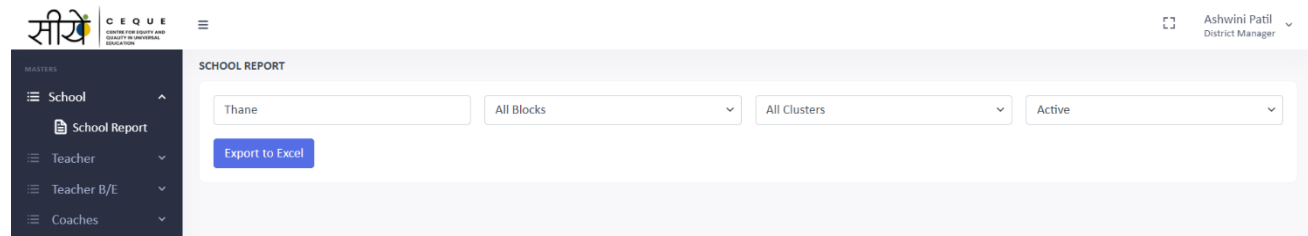

3.0 District Manager Reports

This section lists the reports that are available to the District Manager.

3.1 School Report

This report lists all the schools that are a part of the TIP program. The column names and explanations are given below for a sample district & block.

School Report	
Code	Unique code for each school. This is generated by the system and is not required by the users.
School Name	Name of the school
State	State name
District	District name
Block	Block name
Cluster	Cluster name
Village	Village name
Route	The route on which this school is situated
Geography	Urban/Rural
Type	Government/Private
Instruction Medium	Medium of teaching (Hindi, Marathi, Kannada etc.)
Kendra School	whether this school is a Kendra school Y/N?
Teachers	Total number of active TIP teachers in the school

3.2 Teacher Report

This report lists all the teachers in the system. All their personal and professional details are available in this report. The column names and explanations are given below for a sample district & block.

Please ensure that you select TIP as Yes to get the list of only existing TIP teachers. If this is not selected, then the report will be generated for all teachers – even those who are no longer a part of TIP

Teacher Report	
Code	Unique code for each teacher. This is generated by the system and is not required by the users.
Coach	Name of Coach
District Name	District name
Block Name	Block name
Cluster Name	Cluster name
Village Name	Village Name
School Name	School Name
First Name (Eng)	First Name in English
Middle Name (Eng)	Middle Name in English
Last Name (Eng)	Last Name in English
First Name (Mar)	First Name in the local language
Middle Name (Mar)	Middle Name in the local language
Last Name (Mar)	Last Name in the local language
Subject	Subject taught by the teacher
Grade1 Enrolled students	Number of students enrolled in Grade1
Grade2 Enrolled students	Number of students enrolled in Grade2
Grade3 Enrolled students	Number of students enrolled in Grade3
Grade4Enrolled students	Number of students enrolled in Grade4
Grade5 Enrolled students	Number of students enrolled in Grade5
Date of Birth	Date of Birth
Gender	Gender
Mobile Number	Mobile Number
Education	Highest educational qualification
TIP	Yes/No – whether the teacher is part oof the TIP program
Pursuing Professional Course	Yes/No
Contract Type	Contract Type
TIP Joining Date	Date of joining the TIP program
Years of Work Experience	Years of Work Experience before joining TIP
Involvement Status	Active/Semi-Active/Inactive based on motivation of teacher
Preferred Language	Language used for the baseline/endline tests
Instruction Medium	Language used in teaching

3.3 Teacher Analysis Report

This report provides a comprehensive look at all teacher data including the number of hours of workshop input given to them, the number of hours of coaching input given to them, the assessment data etc. The column names and explanations are given below for a sample district & block

Teacher Analysis Report	
Code	Unique code for each teacher. This is generated by the system and is not required by the users.
District Name	District Name
Block Name	Block Name
School Name	School Name
Coach	Name of the Coach
First Name (Eng)	First Name in English
Middle Name (Eng)	Middle Name in English
Last Name (Eng)	Last Name in English
Subject	Subject taught by the teacher
Workshop Hours received	Number of hours of workshop training inputs received by the teacher
Coaching Hours received	Number of hours of coaching received by the teacher
Exhibition participation (Y/N)	Has the teacher participated in the exhibition
LC1 July-August	Was the teacher's classroom a Learning Classroom in Period1
LC2 Sept-Nov	Was the teacher's classroom a Learning Classroom in Period2
LC3 Dec-Jan	Was the teacher's classroom a Learning Classroom in Period3
Baseline Score	Teacher knowledge baseline score
Baseline Skill	Teacher knowledge baseline skill level*
Endline Score	Teacher knowledge endline score
Endline Skill	Teacher knowledge endline skill level*
CLO1 Score	Score for the first CLO conducted
CLO1 Skill	Skill level at the first CLO**
Last CLO Score	Score for the last CLO conducted
Last CLO Skill	Skill level at the last CLO**

* This is the skill level of the teacher in knowledge calculated based on the total score. The teacher can be at Beginner, Intermediate, Advanced or Expert skill level.

** This is the skill level of the teacher in practice calculated based on the total score. The teacher can be at Beginner, Intermediate, Advanced or Expert skill level.

3.4 Student Analysis Report

This report provides a comprehensive look at all student data like the gender, grade, teacher, the assessment data etc. The column names and explanations are given below for a sample district & block.

Student Analysis Report	
District	District Name
Block	Block Name
School	School Name
Coach	Name of the Coach
Community Worker	Name of the Community Worker assigned to that teacher
Teacher	Full name of the teacher
Subject	Subject taught by the teacher
Grade	Grade of the student
Student	Name of the student
Gender	Gender of the student
Baseline Literacy Level	Student's Literacy level at Baseline*
Baseline Numeracy Level	Student's Numeracy level at Baseline**
Endline Literacy Level	Student's Literacy level at Endline*
Endline Numeracy Level	Student's Numeracy level at Endline**

* This is the level the student is in Literacy. The levels can be Beginner, Letter, Word, Paragraph, Story.

** This is the level the student is in Numeracy. The levels can be Beginner, Digit Recognition, Number Recognition, Subtraction, Division.

3.5 Visit Report

This report gives the list of the visits planned and conducted in a specified time for a specific coach/block/district.

CLO-3 Date	Date of conducting the third CLO
CLO-3 Score	Total CLO-3 Score out of 28
CLO-3 Competency scale	CLO-3 Competency scale**
CLO-4 Date	Date of conducting the fourth CLO
CLO-4 Score	Total CLO-4 Score out of 28
CLO-4 Competency scale	CLO-4 Competency scale**
CLO-5 Date	Date of conducting the fifth CLO

CLO-5 Score	Total CLO-5 Score out of 28
CLO-5 Competency scale	CLO-5 Competency scale**

** This is the competency level of the teacher in practice calculated based on the total score of the CLO. The teacher can be at Beginner, Intermediate, Advanced or Expert competency scale.

3.8 Coach Analysis Report

This report provides a comprehensive look at all data related to a coach data. The column names and explanations are given below for a sample district & block

Coach Analysis Report	
Code	Unique code for each Coach. This is generated by the system and is not required by the users.
District	District Name
Block	Block Name
Coach	Name of the Coach
Date of Joining	Date the coach first logged into the system
Total No. of Teachers	Number of teachers assigned to the coach
Annual target per teacher (hrs)	Target number of hours that the coach should provide coaching to a teacher
Total Annual target (hrs)	Total annual target for all assigned teachers
Total Hours Coached	Actual hours coached to date
% Completed	% achieved as per the target
No. of visits where DM accompanied	Number of visits where the DM accompanied the coach
Date of last Coaching entry in the app	Date when the coach last entered a coaching entry
Date of last Visit entry in the app	Date when the coach last entered a visit entry

3.9 Planning Data

This report is used as an input for the coaching planning process. All the important data related to the teacher e.g. baseline score/skill, how many days since the last coaching, involvement status, no. of hours coached so far, are all listed. This helps the DM to identify which teachers needs to be coached first and the coaching sessions are planned accordingly.

The column names and explanations are given below for a sample district & block.

3.15 Learning Classroom Analysis Report

This report is in 2 parts – the detailed sheet lists the assessment of each teacher’s classroom on all 7 of the Learning Parameters and the summary sheet analyses the data of all Learning Classrooms for a coach as well as a block.

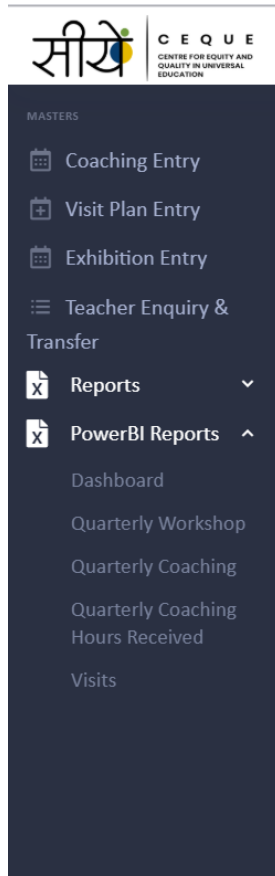

The Learning Classroom data is assessed 3 times in a year. The first period is from July to August, the second is from September to November and the third is from December to March. Once the period is over, the Learning Classroom data for that period cannot be changed i.e. the first period data for a teacher’s classroom will be frozen after 31-August and no change can be allowed after that. However, the data can be updated any time during the period.

Learning Classroom Analysis Report (Detail)	
Period	Name and duration of the Period
District	District Name
Block	Block Name
Cluster	Cluster Name
Coach	Name of the Coach
Teacher	Full name of the teacher
Subject	Subject taught by the teacher

Reading Corner	Whether this parameter is present in the classroom (Y/N)
Print Rich Environment	Whether this parameter is present in the classroom (Y/N)
Student Work Board	Whether this parameter is present in the classroom (Y/N)
Thought for the Day	Whether this parameter is present in the classroom (Y/N)
Calendar	Whether this parameter is present in the classroom (Y/N)
Mood Chart	Whether this parameter is present in the classroom (Y/N)
Attendance Sheet	Whether this parameter is present in the classroom (Y/N)
LC	Whether the classroom is classified as a Learning Classroom (Y/N)

Learning Classroom Analysis Report (Summary)	
Period	Name and duration of the Period
District	District Name
Block	Block Name
Cluster	Cluster Name
Coach	Name of the Coach
Total no. of teachers	Total number of teachers assigned to the coach
No. of LC in Period LC1 July-August	Number of Learning Classrooms from July-August
% of LC in Period LC1 July-August	% of Learning classrooms to the total number of teachers
No. of LC in Period LC2 Sept-Nov	Number of Learning Classrooms from September-November
% of LC in Period LC2 Sept-Nov	% of Learning classrooms to the total number of teachers
No. of LC in Period LC3 Dec-Mar	Number of Learning Classrooms from December-January
% of LC in Period LC3 Dec-Mar	% of Learning classrooms to the total number of teachers

4.0 District Manager PowerBI Reports

These reports are different from the other reports because they can only be viewed on the screen and not downloaded.

In addition, they are impact reports which means they calculate the impact of the program data rather than just reporting it like the other reports. The data in these reports is refreshed every 24 hours.

The following sections will discuss each of the PowerBI reports.

4.1 Dashboard

This provides a snapshot of the main components of program data. The data can be filtered by district or block.

Dashboard : 2024-2025

Districts

States 3	Districts 8	Blocks 10	Clusters 232	Schools 1490
Villages 1414	Coaches 52	Math Teachers 1132	Lang Teachers 1298	Total Teachers 2430
Students 48827				

4.2 Quarterly Workshop

This provides the analysis of the workshops conducted in different quarters. The data can be drilled down from state to district to block. The data can be filtered for each quarter or for a combination of quarters as well as for a specific subject.

The columns displayed are explained below.

Quarterly Workshop : 2024-2025

Overview	17680	16072	16097	10	9.47

Quarterly Coaching Summary	
Target Coachings	No. of coaching sessions given as the target
Planned Coachings	No. of coaching sessions planned
Conducted Coachings	No. of coaching sessions conducted
Target Coaching hrs per teacher per year	No. of coaching hours per teacher given as the target
Average coaching hours per teacher	Average coaching hours provided by the coach per teacher

4.4 Quarterly Coaching Hours Received

This provides the breakup of the coaching sessions and average coaching hours provided by the coach per teacher in different quarters. The data can be drilled down from state to district to block to coach and can also be filtered for each quarter or for a combination of quarters. The columns displayed are explained below.

Quarterly Coaching Hours Received		2025-2026			
		Q1	Q2	Q3	Q4
States	Total no. of teachers	Avg. Coaching hours to date per teacher			
Madhya Pradesh	509	4.50			
Burhanpur	246	4.46			
Indore	263	4.54			
Maharashtra	1799	3.25			
Chandrapur	247	3.02			
Bhadravati	247	3.02			
Nashik	268	3.10			
Trimbakeshwar	268	3.10			
Palghar	440	4.29			
Dahanu	201	4.44			
Palghar	239	4.15			
Thane	266	3.33			
Ambernath	266	3.33			
Yavatmal	578	2.49			
Babhulgaon	292	2.55			
Kalamb	286	2.44			
Overview	2308	3.44			

Quarterly Coaching Details	
Planned	No. of planned coaching sessions
Conducted	No. of coaching sessions conducted
Cancelled	No. of cancelled coaching sessions
Pending	No. of planned coaching sessions which are neither conducted nor cancelled
Unplanned	No. of unplanned coaching sessions
Average Coaching hours per teacher	Average coaching hours provided by the coach per teacher

4.5 Visits

This screen provides the details of the number of visits that were planned for the coach as well as the actual number of visits conducted. The visits are classified by the person/organization visited visit and the planned versus conducted visits are displayed for each type. The data can be drilled down from state to district to block to coach and can also be filtered for each quarter or for a combination of quarters.

The columns displayed are explained below.

Visits : 2024-2025

5.0 Report Viewer Reports

On logging into this role, the name of the user and the access type are displayed on the top right-hand side of the screen.

Clicking on the down-arrow against the Reports, will display the list of all reports available to the Report Viewer.

Similarly, clicking on the down-arrow against the PowerBI Reports, will display the list of all PowerBI reports available to the Report Viewer

All the reports that are available to the DM are also available to the Report Viewer access. These have been explained in detail in the chapter above.

There are 2 extra features/reports – Teachers List in Reports and Quarterly Coaching Feedback Details in PowerBI Reports - which are explained below.

Quarterly Coaching Feedback Details	
Overall Experience	Parameter no. 1 of coaching feedback
Not Good	No. of teachers who selected this option
Adequate	No. of teachers who selected this option
Good	No. of teachers who selected this option
Excellent	No. of teachers who selected this option
Understanding Strategies	Parameter no. 2 of coaching feedback
Did not understand	No. of teachers who selected this option
Understood partially	No. of teachers who selected this option
Good understanding	No. of teachers who selected this option

Understood completely	No. of teachers who selected this option
Resolving Challenges	Parameter no. 3 of coaching feedback
Not helpful	No. of teachers who selected this option
Slightly helpful	No. of teachers who selected this option
Helpful	No. of teachers who selected this option
Very helpful	No. of teachers who selected this option
